- Designing and coding static sites, and via CMS. With SEO optimization and responsive design.
- Design and production of print and web ads, landing pages, micro-sites, mailers, packaging design, and trade-show graphics.
- Branding and identity design and creation including logos, guides, business cards, stationary, and templates.

DESIGNER & FRONT-END DEVELOPER AT IANS

July 2015 – December 2017

- Three of us delivered a new site in six months and under budget. I was responsible for the design, front-end code, and ongoing website maintenance.
- Created email, print, and PowerPoint templates to ensure a high-quality visual consistency.
- Creating, maintaining, and expanding on the current visual style. Updating brand guidelines and the style guide.
- UI/UX design, and creation of HTML, CSS, and JavaScript for internal resources, the portal, and the website.
- Managed freelancers, interns, and projects with contractors.

MOBILE DESIGNER AT MOBILEFUSE

August 2014 – January 2015

- UI/UX design for proprietary ad monitoring & metrics software.
- Designed and built mobile ads and RFP mocks using Celtra.
- Designed and built responsive landing pages that displayed across smartphones, tablets, and desktops.
- Worked with major brands, strict adherence to brand guidelines.
- Developed mobile design best practices and standards.

SENIOR GRAPHIC DESIGNER FOR JAMHUB CORP.

October 2012 – June 2014

- Design strategy, brand development and implementation.
- Design and production of ads, trade-show graphics, landing pages, and packaging. Corporate website maintenance.
- UI/UX design mock-ups for BandLab Beta. Original icon and graphic creation, user flows, and interactions.
- Illustration and original content creation.

WEB DESIGNER FOR LATERAL GROUP

February 2012 – September 2012

- Co-designed and built marketing materials including ads, landing pages, micro-sites, and banners.
- UI/UX design on small projects and graphic support for proprietary app.

CREATIVE PRODUCTION ASSOCIATE FOR CARBONITE

June 2011 – November 2011

- Designed, coded, and tested ad-based click through landing pages with special offers.
- Production and design of GIF and Flash banner ads.
- Coded and tested emails to be sent out to clients.
- Layout and production of guides and print material.

STUDIO ARTIST FOR EVERYSCAPE

April 2010 – June 2011

- Built 3D virtual tours of restaurants, hotels, and resorts.
- Editing photos, drawing maps, and building tours with proprietary software. Provided feedback on software to the in-house engineers.
- Created micro-sites branded to look like a business' main site to house virtual tours.
